1. Introduction

We are the technology arm of BIOREV – a premier 3D Rendering & Architectural Visualization company in the US.

We have created a niche of living with the latest technology and making it a part of our daily lives; and yes, we do it well.

From developing wonderful responsive websites to providing impactful e-commerce solutions, we do it all.

2. Products

- Journey of Xseries development

- **Xseries**

<https://xseries360.com>

XSeries is a completely interactive Home Sales Suite from Biorev. Now Builders can give total freedom to their customers; right from lot selection to home customization. Be it changing the color of the outer wall or altering the roof or making any changes in the interiors, XSeries is the one-stop-shop for your customers for all their customization needs. Your customers can now get an exact picture of their dream home even before it is built. XSeries is the next generation interactive home sales tool for builders, marketers, home developers, and homebuyers which brings about a revolution in your home buying and selling experience.

- **XPlat360**

<https://xplat360.com>

XPlat is a completely interactive Lot Management Tool from Biorev. Now you can get total freedom of managing, monitoring, and manipulating all the lots at a single place, on a single screen, and with a single click. Now you have the freedom to decide which lot you want to which customer and which lots which you want to keep hidden. Your customers also get free from the hassles of running to and fro as they can manage everything, right from the comfort of their home. XPlat is an integral part of XSeries which is the next generation interactive home sales tool for builders, marketers, home developers, and homebuyers which brings about a revolution in your home buying and selling

experience.

- **XHome360** <https://xhome360.com>

XHome is the interactive home visualizer and the one-stop-shop for your customers for all their customization needs. Your customers can now get an exact picture of their dream home even before it is built. XSeries is the next generation interactive home visualizer sales tool for builders, marketers, home developers, and homebuyers which brings about a revolution in your home buying and selling experience.

- **XFloor360** <https://xfloor360.com>

XFloor360 is an interactive floor customizer from Biorev. Now you can give total freedom to your customers with respect to floor customization options. Your customers can now look for available customization options and select the required one and also get an exact picture of their dream home even before it is built. XFloor360 is an integral part of XSeries; the next generation interactive home sales tool for builders, marketers, home developers, and homebuyers which brings about a revolution in your home buying and selling experience.

- **XDesign360** <https://xdesign360.com>

XDesign 360 is a completely interactive virtual design center from Biorev. Now you can give total freedom to your customers to design and choose their home customization. Be it changing the kitchen cabinets or the countertop or

choosing elements of a bedroom, XDesign360 is the one-stop-shop for your customers for all their interior designing needs. Your customers can now get an exact picture of their dream home even before it is built. XDesign 360 is the next generation interactive virtual design center for builders, marketers, home developers, and homebuyers which brings about a revolution in your home buying and selling experience.

- **Biorev360**
